EDUCATION

2018–2020 **MSc., Computer Science** Université de Montréal, QC/CA.

- Internship Supervised by Dr. Yoshua Bengio
  'Methods for controlling and utilizing saliency maps in medical imaging'.

2011–2013 **MSc. with Distinction, Biology** York University, ON/CA.

- Thesis Supervised by Dr. Keith Schneider
  'Tremotopic mapping of the human thalamic reticular nucleus'.

2005–2009 **BSc. Hons., Psychology.** Queen's University, ON/CA.

- Coursework in Biology, Psychology, Statistics, and Philosophy.

PROFESSIONAL EXPERIENCE

2023–Now **ML Scientist** Mila Québec AI Institute, QC/CA.

- Development of open-source GFlowNet tools such as torchgfn.
- ML for Science research with a focus on Biology.
- Ongoing project with Amgen on antibody design.

2021–2022 **ML Research Scientist** Deep Genomics, QC/CA.

- Self-supervised learning (autoregressive and masked-language modelling) for biological sequence representations.
- Multi-modal methods facilitating biological sequence-to-sequence models to generalize to novel cell types.
- Anomaly detection pipeline for our drug screening platform.

2021–Now **Scientific Mentor** Creative Destruction Lab Montréal, QC/CA.

- Performed technical assessments of startups and provided feedback for a business and investor focused audience.
- Technical direction for startups in the NLP, CV, and ML for Bio spaces.

2020–2021 **Applied Research Scientist** Mila Québec AI Institute, QC/CA.

- Consult on, propose, and implement deep learning solutions for Mila's partners: Optimal portfolio allocation (finance) & digital forgery-detection (fraud).
- Collaboration with Mila researchers on medical applications research and cognitively-inspired AI.

2020 **PhD to VC Fellow** Fifty Years, CA/US.

- Course where I sourced, diligenced, and deep-tech pre-seed/seed stage companies, performed due diligence on them, & helped source technical talent.

2020 **Research Intern** Google, PA/US.

- Built a research pipeline to test ideas on an internal click through rate dataset.
- Uncertainty (epistemic) estimation methods for the search ads predicted click through rate team.

2019 **Research Intern** Imagia, QC/CA.

- Developed methods for combining clinical notes with medical images to improve classification performance.
- Developed methods for localizing disease without explicit labels of where the disease is located in an image.

2014–2017 **Research Methods Specialist** Centre for Addiction and Mental Health, ON/CA.

- Biomarkers for vulnerable schizophrenia and Alzheimer's patients.
- Designed, built, and managed (team of 5) a data management platform 22-node compute cluster, and QA tools used by team of 20.
- Contributions to 2 successfully funded grants & 15 published papers.

2013–2014 **Research Assistant** York University, ON/CA.

- Development of a custom data pipeline platform.
- Mentored graduate students in neuroimaging analysis approaches, and contributed to 2 publications.

SKILLS

Python	Tensorflow, pytorch, numpy, pandas, scipy, scikit-learn.
Unix Administration	Certified system administrator by Linux Foundation (2016).
Other Languages	R, MATLAB, Java, C, SQL.

COMMUNITY SERVICE

2023 **Area Chair** Meta Reviewing

Paper Adjudication for NeurIPS Datasets and Benchmarks Workshop 2023

2023 **Grant Reviewing** Health Data Nexus Dataset Grants

Reviewed 5 Proposals on the Collection of Healthcare-focused ML-ready datasets.

2014-2023 **Reviewing** Paper reviews for conferences and journals. .

Reviews for ICLR, NeurIPS Pre-registration in ML Workshop, Biological Psychiatry, MIDL, PNAS, & PLOS ONE

2019 **Instruction** Deep Learning for Neuroscientists

A 1.5-3 hour course on the fundementals of deep learning for a non-CS audiance given at MAIN 2019 and Brainhack 2019.

2015–2016 **Instructor** Python for MRI Data Analysis

Designed and taught course on MRI data analysis using Numpy.

TEACHING ENGAGEMENTS

2014 **Tutorial Leader** Genetics, BIOL 2040

Taught intro-level genetics and marked assignments.

2013 **Mark Compiler** Introduction to Biology, BIOL 1000

Automated this position using Python.

2012–2013 **Tutorial Leader** Mind and Brain, NATS 1860

Led discussions about cognitive science, psychology, and neuroscience with non-science majors.

2012–2014 **Tutorial Leader** Biology of Sex, NATS 1660

Taught basic genetics and cell biology to non-science majors.

2011–2012 **Tutorial Leader** The Living Body, NATS 1610

Taught basic physiology to non-science majors.

2011 **Tutorial Leader** Introduction to Biology, BIOL 1000

Taught intro-level biology, led labs, and marked full-length reports.

2011 **Tutorial Leader** Statistics for Biologists, BIOL 2060

Taught intro-level statistics and marked assignments.
